

Victor Response mobile app

An integral part of our Victor Cyber insurance program is our award-winning mobile app, Victor Response, which delivers critical cybersecurity alerts and expert support.

Here's what this valuable tool has to offer:

Critical cyberthreat alerts

Delivered in real-time, Victor Response alerts Victor policyholders of potential cyberthreats targeting their business, thereby helping to prevent attacks before they happen.

Access to cybersecurity tools

Designed to keep Victor policyholders secure, including dark web monitoring, phishing simulations and deep scanning. These tools are available for free with just a click of a button.

Expert cybersecurity team

Victor Response offers a direct, secure way of communicating with an expert cybersecurity team to remediate vulnerabilities or seek technical support.

Report an incident

If an incident has occurred, Victor Response is the quickest way to report a cyber incident and receive immediate support from an expert response team who will then help triage the issue and mitigate the impact.

The Victor Response mobile app is available on the [Apple Store](#) or [Google Play](#).
